MOHAMED HUSSAIN N

AI / Full Stack Developer

Chennai, India

mhhussain4690@gmail.com – 8610120937 – Portfolio – LinkedIn – GitHub

Professional Summary

Full Stack and AI Developer with practical experience building scalable web applications and AI-enabled systems using React, Node.js, Express.js, MongoDB, and Python. Proven ability to design responsive user interfaces, engineer robust backend architectures, and integrate REST APIs through hands-on industry internships and end-to-end projects. Interested in contributing to high-impact software engineering and AI-driven initiatives.

Education

B.E. Computer Science and Engineering 2023 – 2027
Aalim Muhammed Salegh College of Engineering CGPA: 8.60/10
Honors Program: Additional coursework

High School & Senior Secondary – Sana Model School (CBSE) CGPA: 8.0/10

Internship Experience

AI & Machine Learning Intern – 8Queens Software Technologies Jul 2026 – Aug 2026

- Developed ML workflows, data preprocessing pipelines, and exploratory models.
- Built statistical models and integrated Python-based ML solutions with application endpoints.
- Collaborated on model optimization, hyperparameter tuning, and performance evaluation metrics.

MERN Stack Developer Intern – AdroIT Technologies Dec 2025 – Feb 2026

- Owned and developed the HR module of a Payroll Management System using the MERN stack.
- Built interactive dashboards with analytics charts, dynamic filtering, and indexed search capabilities.
- Implemented role-based access control (RBAC) and integrated frontend interfaces with RESTful APIs.

Technical Skills

Programming: Python, JavaScript, TypeScript, C, Java, C++
Frontend: HTML5, CSS3, React.js, Tailwind CSS, Vite
Backend: Node.js, Express.js, Flask, REST APIs
Databases: MongoDB, MySQL, SQLite
AI & Data: Pandas, NumPy, Scikit-Learn, Matplotlib, Seaborn, GenAI APIs, Hugging Face
Core CS: Data Structures & Algorithms, Object-Oriented Programming (OOP), System Design
Tools: Git, GitHub, Postman, VS Code

Projects

UK Rail Reservation — TypeScript, React, Node.js, Express, MongoDB [GitHub] [Live] Oct 2026

- Engineered a full-stack rail booking and catering platform with server-authoritative pricing and live seat inventory.
- Built real-time seat reservation handling 409 conflict checks, multi-passenger allocations, and TTL-driven session purging.

AI-Powered Text Summarizer — Python, Flask, Hugging Face API [GitHub] Aug 2025 – Sep 2025

- Built an NLP summarization application using pretrained Transformer models for long-form text distillation.
- Designed modular Flask REST endpoints for text parsing and summary generation.

AI FlashCards Generator — Python, Flask, React, Gen AI API [GitHub] Sep 2025 – Nov 2025

- Engineered an automated study-aid platform generating context-aware flashcards from documents using LLM APIs.
- Implemented document parsing pipelines to process 100+ pages, reducing manual study prep time by 40%.

Training & Workshops

- AI Tools & ChatGPT Workshop (2024)
- Power BI Workshop (2024)
- Web Development Training – Adaovi (2024)

Certifications & Achievements

- AI & Machine Learning Internship Completion – 8Queens Software Technologies (Certificate)
- Developing AI Applications with Python and Flask – IBM & Coursera (Certificate)
- Machine Learning with Python – IBM & Coursera (Certificate)
- Python for Data Science, AI & Development – IBM & Coursera (Certificate)
- Payroll Management System Internship – AdroIT Technologies (Certificate)
- HackHustle 2024 – Cybersecurity Hackathon
